I accidentally copied/uploaded a wrong review in Step 2. What should I do?

Koen - 2020-04-17 - in Teacher Academy online courses (MOOCs)

If you made a mistake when submitting your peer reviews, please follow these steps:

- **Contact the helpdesk and attach your reviews (or copy them in the body of your message)**, before the deadline.
- Then, as a courtesy to your peers:
 - Search for the person you were to review in the course Facebook group. Please contact them privately, explain the situation, and share your review.
 - If you didn't find them, please go to the relevant forum category and leave a message explaining your situation, along with your contact details. You can do the same on Twitter using the course hashtag.

Your reviewer may have flagged your review or notified us that the review was not up to standards. By sending us your reviews, you prove that you complied with the requirements.

Of course, be careful with your privacy when sharing your contact information. Also, please do not share your review publicly, out of respect for the person you reviewed.
