## Who can post a listing?

Ismini - 2020-05-04 - in For course providers

Anyone can post a course, mobility opportunity or strategic partnership request on the School Education Gateway. The only condition for creating a listing is that users must have an individual login account associated to an organisation, and each organisation must have a [Participant Identification Code](#) (PIC). Once the account has been set up, users can post a listing in any section. Posters are asked to respect the School Education Gateway [terms and conditions](#).
